Tim Clark – 9845 Crestwood Drive

Mr. Clark spoke about the Central Valley trail and First Mile, Last Mile trails. Mr. Clark stated that he walks the Central Valley trail almost daily and in the mayor's report on Cable 9 stated that this is one of the most walked trails in the city. He shared a photo album with council and the mayor showing different areas of the trail. He stated the pictures show the parking lots at the trails are perfectly salted clean but the paths that connect lots to trails. The trail is plowed but not salted. There are no emergency phones, a log jam since last year. He asked if the maintenance costs are figured in when trails are built. How much Service Dept. time is spent on trails? Cost of material for maintenance? Is there environmentally safe salt that can be used? If the city cannot maintain the trails year round why would they want to purchase more parkland for trails?

Mayor Yates stated he would have to talk to Mr. Campbell in Service regarding the salt. He stated the city spends more time than other communities in the summer maintaining our trails.

Sue Clark – 9845 Crestwood Drive

Mrs. Clark asked how long the normal turn-around time for a public records request is. She asked if she could please get her request.

Mr. Furey stated he thought it was seven days if information was available.

No further audience participations this evening.

Pending Legislation:

Ordinance 04-2019 – Amendments to Chapter 1181 ‘Site Plan Review Regulations’

Mr. Maistros stated that there was an amendment to 1181 which included no changes to 1181.09 confirmation by council. He allowed the language clean-up recommendations from planning commission but removed their recommendation that it would not come to council. Council will still see these items.

Ms. McFearin stated the table of contents numbering did not match the body. Mr. Maistros stated we could get that typo corrected.

Ordinance 05-2019 – Dispatch Contract with Reminderville

The mayor stated this still needs to go before Reminderville’s Council. Mr. Maistros stated this allows for a commencement date of June 1st. The mayor asked council to passover this item tonight to allow Reminderville time to review. Mr. Furey shared his concerns that the amount should be all encompassing of the fees and capital costs but agrees it is an improvement. He would like it to mirror what the city does with its fire contract.

Ordinance 07-2019 – FEMA purchase agreement for property in flood plain

Ms. Mohr stated the amount is below what was budgeted.

Ordinance 09-2019 – Award bid for 2019 Road Program

Ms. Mohr stated it is on its second reading tonight but that she will ask that it be put on an emergency on its third reading so they can enter into the contract as soon as possible.

Ordinance 13-2019 – Accepting Quarry Reserve at Boulder Brook Subdivision
Resolution 16-2019 - TOP with Scratch off Systems, Inc.

This agreement will allow for a 33% benefit for 5 years.

Resolution 17-2019 - TOP with Spectrum Diversified Designs, LLC

This agreement will allow for a 50% benefit for 3 years. The reason for the shorter term is that is the length of their lease.

Ordinance 18-2019 - Permanent Annual Appropriations for 2019

The changes made at this evenings Finance meeting will be reflected next week. Mrs. Buccigross will request that when the budget is on its third and final reading that it be placed on emergency to allow for timely passage.

Ordinance 19-2019 - Enter agreement with Waste Management, Inc.

This is to enter into a three year contract for waste hauling.

AWARDS & PRESENTATIONS:

No awards or presentations this evening.

PUBLIC PARTICIPATION:

Bob Thewes – 2229 Demi Drive

Mr. Thewes spoke regarding the financial recap given at last meeting. He stated it is the way the funds have been spent is frightening. The city has made purchases and financed them when they could have paid cash for them. He stated this is not fiscally responsible way to spend taxpayer's money. He believes the city would be better off with a city manager for of government.

Tim Clark – 9845 Crestwood Drive

Mr. Clark spoke about the Central Valley trail and First Mile, Last Mile trails. Mr. Clark stated that he walks the Central Valley trail almost daily and in the mayor's report on Cable 9 stated that this is one of the most walked trails in the city. He shared a photo album with council and the mayor showing different areas of the trail. He stated the pictures show the parking lots at the trails are perfectly salted clean but the paths that connect lots to trails. The trail is plowed but not salted. There are no emergency phones, a log jam since last year. He asked if the maintenance costs are figured in when trails are built. How much Service Dept. time is spent on trails? Cost of material for maintenance? Is there environmentally safe salt that can be used? If the city cannot maintain the trails year round why would they want to purchase more parkland for trails?

Sue Clark – 9845 Crestwood Drive

Mrs. Clark asked if she could please get her public records request.

Michael Turle – 9930 Forest Lake Drive

Mr. Turle stated he was not able to attend the State of the City. He spoke regarding the city's finances and Mr. Furey's recap from the last council meeting. Mr. Turle said he took offence to the comments that the waterlines in the acres did not need to be repaired. He stated the items that were spoken about are all items that were built 10-15 years ago and have nothing to do with the last three years spending of the city's reserves. He stated that the Fire Chief spoke a year or so back about repairs needed for station 1 or possibly a new station but the city built a clubhouse instead. He stated he would take a fire station over a clubhouse any day. He would like to know where all the city's money has gone.

Mr. Furey responded to Mr. Turle and stated that the waterlines in the acres were replaced as part of a road program. There was approximately 15 water check test done and none showed anything wrong with the water. He stated we have done significant road improvements. Mr. Furey stated Mr. Turle's plan for downtown was to put \$8 million into the old school with no business plan to make it work. Mr. Furey stated that there should be \$13 million in reserves at the end of the year. The city has an AA2 rating. Mr. Furey stated the mayor is going to give you an answer to where the money is during his report.

No further public participation this evening.

Mr. Scaffide:

Mr. Scaffide brought up the organizational meeting in December. He stated it was important to this council that they knew if anyone was going to run for mayor before they elected their president. It was asked of Mr. Steele and he gave his answer and then was elected to be the council president based on what council was told. Mr. Scaffide asked Mr. Steele if he believed he owed it to council to let them know he changed his mind as it was important to this council.

Mr. Steele stated he changed his mind. He said his answer is no, he changed his mind. He stated he has been encouraged to run by a lot of people. Mr. Scaffide asked Mr. Steele if that then gave

council the opportunity to change their mind. Mr. Steele stated if he'd like to then to go ahead. Mr. Scaffide stated that was not his intentions this evening but since it was challenged he will.

MOTION: To remove Mr. Steele from the Council Presidency and replace him with Ms. McFearin who is the current Vice-President.

Moved by S. Scaffide, seconded by M. Stauffer

Mrs. Stauffer stated she understands that Mr. Steele changed his mind but said it was important to this council. She stated that when two council people were running before for the mayor's seat both agreed council president was not the place to be in an election year. Mr. Steele asked if they were going to ask Mayor Yates to remove himself. Ms. McFearin stated that he did not misrepresent himself and did not let the rest of council know.

Mr. Furey asked Mr. Maistros if there was anything in the charter on the removal of council president. Mr. Maistros stated it is not covered in the charter. Mr. Furey stated that council has redone their rules in the last year and there is nothing in them that states you cannot be council president and run for mayor. He thinks there is nothing wrong if Mr. Steele remains council president whether he runs or not.

Mr. Steele stated that the agreement Mrs. Stauffer talks about happened on council before he was on council and he was unaware of it and did not agree to it. Mr. Scaffide stated whether it was a policy of council or not, this council asked the question prior to voting for president. Mr. Scaffide stated he did not plan on coming here tonight to make this motion. He thought Mr. Steele would state he changed his mind and apologize for not communicating it to council prior. Mr. Scaffide was just planning on bring up something that concerned council. Mr. Steele stated he apologizes if council feels he stepped on their toes. He was asked and encouraged by a lot of residents and his wife agreed.

Mr. Barr stated he was not around when this was discussed in prior elections but did want to comment that Mr. Steele was in a profession, as was he, where your word is your bond. He has no issue with Mr. Steele or anyone else running for mayor. Only because it was specifically addressed and to paraphrase Mrs. Stauffer we don't think a political campaign should be run from the council president seat, he felt there was at least some sort of agreement on Mr. Steele's part but Mr. Steele has every right to change his mind.

Mr. Steele said it is not his intent, nor will he let it happen, that he would campaign up there as council president. The community will hear from him as a candidate but it will be outside of this chamber because this is where we do city business.

Mr. Scaffide stated that is all council wanted to know ahead of time and had he told council ahead of time what his plan was because it was important to council. Based on Mr. Steele's comment and after having this conversation and Mr. Steele's comments to not campaign from the council presidency, Mr. Scaffide withdraw his motion.
